

PhytoSUDOE newsletter, number 4

July 2018

Highlights

Program available and open enrolment for the PhytoSUDOE Final Conference

It will be held in Vitoria-Gasteiz on the 11th of October. Free registration (until full capacity) through the 'Events' section of our web.

Open enrolment for the 3rd PhytoSUDOE summer course

Entitled "New trends in restoration of degraded soils III: trace elements, organic pollutants and constructed wetlands", it will be held in Vitoria-Gasteiz in the two days prior to the final conference (9-10 October); registration through the web of the University of the Basque Country (UPV/EHU).

NUEVAS TENDENCIAS EN RESTAURACIÓN DE SUELOS DEGRADADOS III: METALES, COMPUESTOS ORGÁNICOS Y HUMEDALES ARTIFICIALES
09.oct - 10.oct

Great success of participation in the second stakeholders PhytoSUDOE Workshop held in Porto

A total of 45 stakeholders in the field of degraded soils management, together with 22 students, attended the workshop held on April 17, at the Higher School of Biotechnology of the Portuguese Catholic University.
